PATIENTS ARE OUR PASSION

SAFETY IS OUR PRIORITY

2024 FISCAL YEAR | ANNUAL REPORT

PATIENTS ARE OUR PASSION

SAFETY IS OUR PRIORITY

Our members are compassionate caregivers who dedicate themselves to their profession and take pride in their work. Health care wouldn't be the same without medical imaging and radiation therapy professionals.

Vice Speaker of the House

Dear ASRT Members:

The mission of the American Society of Radiologic Technologists is to advance and elevate the medical imaging and radiation therapy profession and to enhance the quality and safety of patient care. Medical imaging and radiation therapy professionals are sometimes overlooked, but they have a crucial role on the health care team and raising public awareness of our profession is key to our future. Our work is our passion, and we have highlighted this in the fiscal year 2024 annual report.

In FY24, we provided our members with outstanding services including numerous professional development opportunities, cutting-edge research and governance and public policy support. In addition, we launched the Be Seen campaign to raise public awareness about the crucial role medical imaging and radiation therapy professionals play in patient diagnosis, intervention and treatment.

This annual report includes statistics and facts about a variety of projects and initiatives that highlight our passion for our members, our dedication to the profession and our goal to ensure the public, other health care professionals and elected officials know who we are. In addition, the report provides an overview of what we worked on, how the projects benefited our members and showcases our commitment to safe and high-quality patient care.

We are honored to present this annual report and are excited to build on the momentum generated this year to continue to elevate the profession. It's time for us to Be Seen.

Sincerely,

Melissa B. Pergola
